

# SKILLS SESSIONS

## Blog Smart !

**FEBRUARY 22ND TO MARCH 15TH**

**22nd Feb**

**Getting Started**

An introduction to some of the different options available to you for setting up a blog. We will look at some of the blogs around school that are successfully encouraging students to share, publish, comment, reflect and discuss. By the end of this session you will have a blog up and running and a good idea of how you can add content. You don't need to bring anything with you and all the tools you will use are freely available online and don't require any sort of special hardware.

**1st March**

**Adding Content**

This session will look at some of the web 2.0 tools available that will enable you to add creative and interesting content to your blog. We can look at adding animations, audio, film, text, images and links.

**8th March**

**Going Mobile!**

A chance to see how mobile devices that you and your students might already have can be used to capture and share to your newly created blog. There will be some devices for you to experiment with, but feel free to bring along your own.

**15th March**

**Making Links**

This will give you a chance to see how your blog can help you link in with other people and groups and also how you can follow the progress of other blogs whilst developing your own. You can see how you can access a virtual network of people sharing innovations and creating new ways of using blogs.

**Room 56 Every Monday, 3.45 - 4.45**

**Staff and students welcome**

**SKILLS SESSIONS**

**BLOG SMART !**
